

GTMP/AFRO Mapping Session

- Progress made on Mapping of NTDs in the African Region
 - ❖ 18 countries fully mapped & 29 to be mapped
 - ❖ Accelerate the implementation of mapping project to complete by the end of 2015
- Breakout into groups to discuss key challenges and solutions
 - ❖ Available assets to support NTD Mapping
 - ❖ Achievable best practices for data collection, presentation and sharing (country ownership, access to aggregated data for implementation & publication)
 - ❖ Key collaboration & engagement to achieve to objectives

Proposed action points to achieve

● Assets

- ❖ Technical expertise on Mapping
- ❖ Supply of essential diagnosis tests/kits

● Data

- ❖ Use of standardized form and electronic data collection

● Enhanced collaboration on mapping

- ❖ Mapping of stakeholders at country and regional levels
- ❖ Engage GTMP and other stakeholders on lessons learned on previous mapping initiatives
